**Wangara Poultry & Game is proud to introduce our delicious **NEW** branded product.**

## POUSSIN / SPATCHCOCK

Reared amongst the rustic grain fields of Central Victoria, *Bendigo Gourmet Poultry & Game's* poussin are harvested at 2 to 3 weeks of age, resulting in a plump, tender bird of exceptional quality. Fed on a locally sourced ration rich in fresh grains such as wheat, corn and soya bean and given no promotants or hormones of any kind means our poussin are an all natural delicacy. Weighing between 300gm and 700gm poussin represent a fantastic portion control option for chefs and home-cooks alike. An incredibly versatile product, poussin is perfect for roasting, braising, or grilling on a barbeque.
